EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Craane on November 9, 2005.

The application has been amended as follows:

Claims 31-35 and 44-48 are cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record disclose shredders with a plurality of spaced first shredder members attached to and rotatable with a rotor and a plurality of spaced second shredder members attached to a frame. However, the prior art of record does not disclose or render obvious all of the details of the limitations of independent claims and, in particular, a shredder apparatus for shredding wet chip materials with a feature of a rotatable rotor disposed on a fixed shaft, the rotor disposed on a bearing assembly disposed on the fixed shaft, and a seal assembly disposed between the rotor and the shaft is distinct from the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

The drawings are objected to because the reference numbers throughout the drawings are not legible. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Election/Restrictions

The election requirement made in the last Office action dated July 28, 2005 has been withdrawn in view of Applicant's arguments.
